

Overview

C++ Programming Practice
Victor Yacovlev (Viktor Iakovlev)
and Julia Ivanova

About The Practice

- **Ours goal:**
Teach you to make software project
- **Yours goal:**
Make a project
- The “Practice” means mostly **self work** but not learning new things
- There is some prerequisites to be studied on first lessons

Teachers

- **Victor Yacovlev** – will teach you basic technologies to project development
- **Julia Ivanova** [starting from Oct, 4] – will mentor you while implementing your project

Project Tasks

- Implement a complex program
- Make tests coverage
- Write documentation
- Publish your project on GitHub

Topics to be Studied

- Lesson 01 (today) – Version Control System
- Lesson 02 (Sep, 27) – Introduction to Qt
- The rest is project implementation
